

YOUNG MINDS AT WORK ...

The Inter-House Quiz for Grades 7 to 9 was conducted on the 18th of January 2010. Four teams, one from each house, battled through seven grueling rounds of mentally challenging questions to try and win honor for their respective

houses, and to earn the glory of being the best quizzards of their respective year groups. The teams brilliantly answered questions from several different topics – be it Geography or History, Sports or General Knowledge – they had it all.

Questions for the audience after every round were greeted with a lot of zeal and enthusiasm, and they also gave the non-participants a chance to test their knowledge on various aspects of today's world. Throughout the contest, the teams were tied neck-to-neck, but in the end, the team from the William Wordsworth house bagged the first position, and proved to be the most consistent and knowledgeable quizzards of the lot.
