

## KIDZANIA WOW!!

We'd like to thank Emaar & Kidzania for the excellent opportunity afforded to some of the children from our school at the preview of kidzania. Without exception, every one of them came back raving about having the time of their lives there. The parents who accompanied the children too, have reported back on how they enjoyed seeing the joy on their children's faces as they attempted several different professions.

The concept itself is unique and that makes it a hit with Dubai children. We loved the fact that the children got to role play in real environments that they were familiar with. From the Emirates styled check-in procedures to heading to the HSBC bank to encash cheques, they loved to be grown-up for the day.

We believe that such environments help in their creative thinking, social skills, and will result in a rise in their confidence levels. It goes well and hand in hand with our school ethos of holistic education.

Once again, we thank you for this opportunity. As Kidzania has created a buzz around our school, we will work towards a school field trip there soon.
