Al Diyafah High School embraces an ethos of inclusion, which will address the needs of students with Special Educational Needs or Disabilities (SEND) or that of Gifted and Talented, in full accordance with UAE Law and KHDA expectations (Federal Law 29 2006 and Law Number 2 of March 2014) and the Dubai Inclusive Education Policy Framework - Admissions, Participation and Equality 2017.

The School will ensure that students are not denied admission based on their Additional Support Needs, within the capability of the physical and human resources of the school. SEND students will receive 'sibling priority' for entry to the school.

ADHS recognizes that it is important to ensure that the full range of abilities is represented and that the appropriate identification of the needs of a Student of Determination is the first step in offering quality provision and support. Identifying the type of difficulties that a Student of Determination might experience will enable ADHS educators to provide direct support to the student and to evaluate and lower other external barriers to learning. This process may not always require a formal diagnosis, but on occasion where this is deemed necessary, the School will work with Parents in finding a suitable provider.

All potential Students of Determination will be interviewed by the Head of Inclusion or SENDCO, with their parents. Where the school can meet the additional support needs of the child, a place will be offered, provided spaces are available in that year group and subject to a maximum of **10%** of any class consisting of students requiring support.

Any additional fees that are considered will be agreed with parents at the point of entry to the school or after a year-end review, involving parents.
