## A Poignant Tribute to The Father of Dubai

HH Sheikh Rashid bin Saeed Al Maktoum the great leader envisaged a dream of what was required to transform Dubai into a modern city. Driven by this vision, he accomplished what many believed to be impossible. To commemorate the 30th anniversary of the death of this visionary, Al Diyafah High School Dubai conducted a myriad of activities and events.

### Thank you!

Your Highness Sheikh Rashid, thank you for all you have done to develop Dubai to the way it is right now. Thank you for opening the International Airport because of which we could set foot in this country. Thank you for opening the first Desalination plant in Jebel Ali which has resulted in everyone getting the pure water that we need for daily life. There are many other contributions that you have made for Dubai and I, in fact we all are really grateful to you!
