

AL DIYAFAH HIGH SCHOOL

# PLANTING THE

# SCHOOL'S GREEN PATCH

*On the morning of 27<sup>th</sup> October - the Eco Envoys of the Primary school, under the guidance of their team leaders and Mrs. Usha and Ms. Unnati, sowed vegetable and fruit seeds in the school's backyard soil patch. Students used 3 garden kits gifted by "Planet Greeners Agricultural Services L.L.C".*

*The 'Veggie Grow Kit' provided to them consisted of trays, soil, four types of seeds and plastic bags*

*to plant the saplings. The eco-envoys enjoyed the whole activity - from opening the kits, filling the trays, sowing the seeds, to watering the soil.*

*They even refused to wear synthetic gloves. They said, 'We want to be eco-friendly and don't want to waste any resource.'*

*They wanted to come each morning personally water it, check its growth and know when to transfer it to a bigger pot in order to flourish further.*

*It was refreshing and recreating learning experience for them.*
